

Dental Technicians Study Day - Cross Infection & Dental Materials

Suitable for: Dental Technicians
 Speakers: Sarah Beaumont
 Verifiable CPD hours: 6 (Full Day Course)

Aim:

To implement standard precautions for cross infection and control in the dental laboratory and explore dental materials which are used in the dental laboratory

Date

20/02/2010

Venue

Northern Deanery Dental Training Facility, Bourne House,
 Mandale Business Park, Belmont, Durham DH1 7TH

Reference

C/0971

Expected Learning Outcomes:

By the end of the course, participants will be able to:

- discuss the manufacture and use of dental laboratory related materials
- describe the current legislation applicable to infection control aimed at employees and employers
- list blood borne pathogens relevant to dentistry
- describe key features when developing an infection control policy in the work place

Essential Content:

Characteristics of micro-organisms, steps in disease development, spread of micro-organisms, artificial immunity, PPE, disinfecting and decontamination, universal precautions, dental materials

Teaching Method:

Lecture/s, discussion/s, group work

Course Information:

The second of a series of courses specially designed to support dental technicians in their dental laboratory. This full day course will give delegates the opportunity to network with other technicians and explore issues around two GDC core subjects infection control and dental materials. The course will be delivered in the form of a lecture, discussion and group work by very experienced speaker Sarah Beaumont.

Course participants are limited to 40, if this course is oversubscribed:

- (a) Your name will be automatically added to the waiting list unless you tick the box below
- (b) Your cheque(s) will be shredded

PLEASE COMPLETE IN BLOCK CAPITALS AND RETURN TO: Janet Fullard, Northern Deanery Dental Training Facility, Bourne House, Mandale Business Park, Belmont, Durham DH1 7TH
