Dear all at Dental Technologists Association

Thank you for your donation to Dentaid. Your fantastic donation of £210.00 has enabled us to continue our work in countries where people are living in pain due to a lack of dental care.

Dentaid are delighted to have launched many new projects aimed at helping people in the UK as well as overseas.

We have established working in the refugee camps in northern Greece where there is a desperate need for dentistry. We have teams of volunteers setting up regular dental clinics in the camps offering emergency treatment for people who have developed terrible dental problems since fleeing their homes.

Other teams of volunteers will be heading to Uganda, Nepal, Cambodia, Panama, Moldova, Morocco and Kenya where they will be working alongside local professionals to offer outreach clinics and oral health education programmes in prisons, schools, slum areas, orphanages and remote rural locations.

Oral health education is also an important part of our work.

Our Ref: 17.05.17dentDon
Dentaid continues to send reconditioned dental equipment and portable surgeries around the world and we have recently sent donations to Pakistan, Nepal and Ukraine with more equipment being sent to Vanuatu, Malawi and Sierra Leone in the near future.

In the UK we have run the Real Junk Tooth Project in Dewsbury, West Yorkshire which provided emergency care for vulnerable people including the homeless, migrant workers and people with a history of mental health problems. Dentaid has purchased a mobile dental unit to expand this work and reach more people who find it difficult to access NHS dental care.

The mobile dental unit will also be used to deliver oral health education projects in schools as we work to reduce the amount of decay and dental pain suffered by young children.

Everyone at Dentaid is very excited about our growing charity and the number of people we are helping around the world. But we could not do this without your support and are very grateful for your donation.

With best wishes

Tracy

Naomi and the Dentaid team
